Our mission at EuphoriumX is to help consumers enhance their health naturally and improve everyday wellbeing through access to **affordable, high-quality CBD products**.

What are the benefits of CBD oil?

CBD oil is extracted from the Cannabis indica and Cannabis sativa plants, which are also used to make marijuana.

CBD oil, like marijuana, has the ability to relieve pain, reduce anxiety, and promote appetite, but without the euphoric effects. CBD may also help with the treatment of epileptic seizures.

Cannabidiol (CBD) is the abbreviated name for one of the two compounds in cannabis that have the most significant health advantages. Tetrahydrocannabinol is the other compound (THC).

How many drops of CBD oil should I take?

We recommend starting with the recommended dosage of two to three drops three times a day to figure out how many CBD oil drops to take. If no changes are seen after a few days, you can increase the frequency or number of drops.

What is full-spectrum CBD?

A [full-spectrum CBD product](#) contains multiple components in a cannabis plant, such as essential oils, terpenes, and cannabinoids, notably cannabinol.

At Euphorium X, our **full-spectrum tinctures** are prepared with 85 percent + pure, full-spectrum CBD distillate obtained from sustainably grown American hemp. In addition to CBD, full-spectrum tinctures contain terpenes and additional cannabinoids such as CBG, CBN, and trace THC levels (less than 0.3 percent). Because several cannabinoids and terpenes work together synergistically in what is known as the 'entourage effect,' full-spectrum products are more effective.

From ancient Egypt, Tibet, Roman, Aztec and Native American, silver has been a part of humanity for millennia, cherished, worn and worshipped, each claiming a mystical power tied to the metal, as well as alleged healing and protective properties to whoever came to its possession.

Drawing inspiration from the mythological legacy of silver, Novaculata brings a new generation **CBD vape oil** experience to help boost mood improvement and overall well-being. Perfect for beginners looking to take the edge off while getting a taste of that sweet CBD rush.
