avoiding pesticides and toxins.

GMO-free, pesticide-free, organically grown, sugar-free, keto-friendly, and paleo-friendly are all features of our products (Best Hemp CBD distillate at Prestigious Colorada Indo Expo)

Our mission at EuphoriumX is to provide **affordable, high-quality CBD products** to help people improve their health organically and in everyday life.

How many drops of CBD oil should I take?

To find out how many CBD oil drops to take, start with the recommended dosage of two to three drops three times a day. After a few days, if no changes have occurred, you can increase the frequency or number of drops.

What is full-spectrum CBD?

A full-spectrum CBD product contains multiple components in a cannabis plant, such as essential oils, terpenes, and cannabinoids, including cannabitol.

Our full-spectrum tinctures are manufactured with 85 percent or more full-spectrum CBD distillate from Euphorium X's responsibly grown American hemp. In addition to CBD, full-spectrum tinctures contain terpenes and additional cannabinoids like CBG, CBN, and trace THC levels (less than 0.3 percent). Because multiple cannabinoids and terpenes work together synergistically in what is known as the 'entourage effect,' full-spectrum products are more effective.
